From Tom Smiley on 03-Jan-2010

Charlie, Barry, and the whole Gang are great folks. They like flying and they like pilots. The airspace is NO problem, the tower, and savannah approach are easy to work with and very helpful. Hinesville is fortunate to have such a great airport and FBO staff.

From Tom Smiley on 29-Nov-2009

Outstanding service! Charlie Martin is an outstanding person. Very helpful. As a pilot, he understands FBO operations. I really enjoyed LHW. The tower folks and FBO personal are a pleasure to deal with. The Air-space stuff is NOT a Problem at all. Great service too!

From Steve King on 21-Oct-2009

Had as pleasant an experience yesterday as I have at any FBO. Charlie Martin went way above and beyond to make my stay enjoyable and the facilities are outstanding. I will look forward to my next visit.

From Johnny Walker on 26-Jul-2009

Excellent service from Barry! Met me out to tiedown. Had courtesy car waiting (I had called prior to flight)! Fuel is probably the cheapest in the region. Will definitely come again as ATC was helpful too keeping me out of the restricted areas that were hot!

From Roger Moore on 19-Jul-2009

Diverted to Fort Stewart due to weather on Tuesday, June 7, 2009. Did not know the area and Charlie Martin could not have been more accommodating. He gave recommendations on places to eat, stay and arranged for a courtesy car. Very nice facility with good fuel prices. Weather was questionable on day of departure and Charlie Martin also assisted with obtaining weather info on military side of FBO. An unexpected diversion turned into a location that I hope to visit again. See you later Charlie! Thanks for all your help!
